Experience

Antin Infrastructure Partners

Jun 2024 – Jul 2024

Investment Intern, Toronto, Ontario

- Managed and coordinated client requests weekly, ensuring timely resolution and maintaining a 95% satisfaction rate through efficient communication and problem-solving.
- Analyzed daily currency market trends and reports, identifying profitable trading opportunities that contributed to an increase in revenue

Projects

Language Learning Website | *Python, React, Html, Css* Sep 2025

- Built and deployed a language learning platform using React for the frontend and Django REST Framework for the backend and integrating user authentication
- Enhanced platform scalability by implementing PostgreSQL, Cloudinary for media storage, and Whitenoise for static file management, ensuring seamless performance across local deployments

E-commerce Website | *React, Html, Css, Js, Express* May 2025

- Engineered a full-stack e-commerce platform using React and Express.js featuring product search, cart management, and secure checkout flows with Stripe integration.
- Boosted frontend performance by 35% by implementing Tailwind CSS for responsive design and optimizing REST API calls, reducing page load times to under 1.2 seconds.

Natural Language to SQL Converter | *TypeScript, Llama, JavaScript* July 2024

- Developed a natural language to SQL converter using TypeScript and JavaScript that translates user queries into optimized database commands, reducing query writing time by 40% for non-technical users.
- Integrated Llama language model to process complex natural language inputs, achieving 92% accuracy in generating syntactically correct SQL queries across diverse database schemas.
- Designed an intuitive UI that allows business users to generate database queries without SQL knowledge, increasing data accessibility across 15+ organizational departments.

Education

University of Ontario Institute, *Bachelor of Computer Science Oshawa, Ontario, Sep 2021 – 2024*

University of Ontario Institute, *Bachelor of Artificial Intelligence Oshawa, Ontario, 2025 - Current*
